

SWING GATE OPENER **TERRIER** **200**

Ideal for light to medium gates, this economical motor combines robust durability with smart technology. Its corrosion-resistant structure withstands extreme weather and intensive use, while a personal key ensures effortless manual release during power outages. Additionally, the Chow! app provides complete remote control, programming, and video security monitoring directly from your smartphone.

Plot # 89-A, I&T Center, G-8/1, Islamabad

Salient Features

- Cost Effective and reliable solution
- Includes WiFi and Bluetooth module; free app for control, notifications, and settings
- Worm Gear Based mechanism ensuring durability
- 100 Watts of raw motor power (DC 24V)
- Perfect Choice for Swing gates under 250 kg of weight

Kit Includes

2x **Actuator** Arms

1x **Control Panel**
with WIFI Module

2x **Remotes**

1x **Additional Latch Lock**
for increased Security

2x **Manual Release Keys**

1x **Floor Stopper**

1 Year Warranty
(Extendable)

Technical Features	Terrier 200
Power supply	110-240VAC (50-60Hz)
Motor Power supply	100 Watt 24V Dc with manual release
Max. gate weight	250 kg
Max. gate Length	2.5 Meter
Peak Thrust	2500 Newtons
Stroke Length	400 mm
Typical gate opening time	10-14 Seconds
Duty cycle	20%
Protection grade(IP)	IP44
Working Temperature	-20°C to +50°
